VIMOR is an Italian company specialized in the production of jewellery chain making machines and finished products in gold, silver, and platinum. This dual mission has enabled the company to consolidate its position on markets worldwide since its founding in 1995.

Commitment, drive, technical and practical know-how, flexibility, accessibility, and particular attention paid to each individual client have always been the values that distinguish **VIMOR**, boosting the company to an ever-higher profile on the international market.

Indeed, the company works in leading world markets like China, Singapore, India, Dubai, Saudi Arabia, USA, and Turkey, as well as in numerous other nations, where the tradition of goldsmithing has always been deeply rooted, like Israel, Jordan, Algeria, Morocco, and Pakistan etc.

Confidence in its own resources and ambition push the company towards continuous improvement and openness to innovation and new technologies. **VIMOR** is proud of its family business origins and, still today, maintains a cordial and informal approach towards clients and other companies, while guaranteeing the utmost professionalism and accuracy.

We are able to provide the Customer with a complete know-how, from casting to finishing, with the relative machinery. Contact us +39 392 388 55 86
